Enrich your sound experience

- 15 W RMS total output power
- Dynamic Bass Boost for deep and dramatic sound
- Digital Sound Control for optimised music style settings

Easy to use

- Dock any iPod/iPhone, even in its case
- Single remote control for the system and iPod

PHILIPS
sense and simplicity

Highlights

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

DAB

DAB (Digital Audio Broadcasting) digital radio is a new way of broadcasting radio, in addition to FM analogue transmission, via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear and crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB digital stations there are no frequencies to

remember, and sets are tuned by station name, so there is no retuning on the move.

Dock iPod/iPhone in its case

Smartly designed spring-loaded docking port effortlessly accommodates any iPod or iPhone, without special adapters. What's more, it works even when most protective cases are on - just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Specifications

Audio Playback

- Playback Media: CD, CD-R, CD-RW, MP3-CD
- Disc Playback Modes: 20-Track Programmable, Repeat/one/all/programme, Fast Forward/Reverse, Next/Previous Track Search, Repeat Play, Shuffle Play
